

POLYPLEXUS™—INTERDISCIPLINARY RESEARCH PLATFORM— AWARDED NEW GSA SCHEDULE CONTRACT FOR DIGITAL R&D ACCELERATION SOLUTION

NEW YORK, November 1, 2021—Polyplexus (polyplexus.com), announced today that its Incubator research and development (R&D) acceleration solution is now available for purchase through the U.S. General Services Administration (GSA) schedule. Polyplexus Incubators connect organizations with the platform’s interdisciplinary expert community, providing an opportunity to engage in structured, evidence-based conversation that propels innovation by uncovering new ideas, evidence, and talent efficiently.

Polyplexus – initially funded by the Defense Advanced Projects Research Agency (DARPA) – is spearheading a faster, more efficient, interdisciplinary R&D process to better address systemic challenges. The global, open platform disrupts the current research paradigm by connecting researchers outside traditional silos and accelerating cross-sector knowledge production. Polyplexus focuses on evidence-based conversations around research questions, bringing DARPA-like acceleration to the full innovation and R&D market.

“Polyplexus creates a burst of R&D activity, convening interdisciplinary communities around specific technical challenges. We have used it effectively with DARPA to increase engagement and match rate and are excited to offer the platform more widely through the GSA. We can quickly and efficiently help organizations identify better research questions and get better abstracts and proposals,” says Michael Goldblatt, former Director of the DARPA Defense Sciences Office.

ABOUT POLYPLEXUS

The Polyplexus platform is focused on accelerating novel discovery around interdisciplinary science questions. The platform offers an efficient way to review scientific evidence, spur hypothesis development, and guide research proposal generation. Developed for scientific researchers and research sponsors, Polyplexus reinvents the first mile of the innovation process. Join the community at Polyplexus.com and follow us on Twitter (@polyplexors) and LinkedIn.

ABOUT GSA

GSA provides centralized procurement for the federal government, managing a nationwide real estate portfolio of nearly 370 million rentable square feet and overseeing approximately \$75 billion in annual contracts. GSA’s mission is to deliver the best value in real estate, acquisition, and technology services across government, in support of the Biden-Harris administration’s priorities. For more information, visit [GSA.gov](https://www.gsa.gov) and follow us at [@USGSA](https://twitter.com/USGSA).
